

To Whom it may concern:

Last summer we bought a new home that was quite a bit smaller than the one we lived in so we had a major problem of decorating. We did not know where to begin. I had met Cyndi Ashworth at a group I belong to, so I called her for help. She was amazing, she took charge and implemented some great ideas for color schemes, furniture placement, curtain styles and colors, and wall hangings. She achieved a look that I wanted and did it in a time frame that was unbelievable. She even reupholstered our dining room chairs herself so they matched the decor.

My husband and I are very pleased with her work and we would recommend her as a decorator to anyone who needed one. Call me if you like 787-2709.
